VETRERIA ARTISTICA

[WWW.CRISTALSRL.COM](http://WWW.CRISTALSRL.COM)

*SOLUZIONE CON VETRO “ATMOSFERA”*

*SOLUZIONE CON VETRO “TURCHESE” E “TERRA”*

*SOLUZIONE CON VETRO “SATINATO BIANCO”*

*SOLUZIONE CON VETRO “ORO” E “PAPAVERO”*

Le VETRATE Cristal sono da sempre concepite con le più peculiari caratteristiche di originalità artistica che con raffinata maestria riescono ad interpretare alla perfezione tutta la gamma delle SOLUZIONI d'arredo. Proprio quest'ultime garantiscono la possibilità di un adattamento dei vetri ad ogni tipo di esigenza tecnico-abitativa.

Porte a battente: normali e a filo muro, scorrevoli interno/esterno muro, tutte montate su telai rigorosamente in legno toulipier laccato nei colori più richiesti.

*The Cristal GLASS DOORS have always been conceived with the most peculiar characteristics of artistic originality that manage to interpret the entire range of the furnishing SOLUTIONS perfectly, with refined mastery. The latter guarantee the possibility of adaptation of the glass doors to each type of technical-housing requirement.*

*Leaf doors: normal and along the wall, sliding doors inside / outside the wall, all of which are mounted on lacquered toulipier wood frames in the most sought after colours.*

Vetri stratificati accoppiati ad un vetro portante di 3 mm float con una pellicola a caldo. Stampati, satinati, verniciati. Lavorazione: effetto sabbato. Tutte le parti colorate delle vetrate sono dipinte interamente a mano. L'effetto sabbato dei nostri modelli è ottenuto grazie ad una particolare verniciatura spruzzata a mano. Colorazione effetto nuvola.

*Glass panels hot coupled with a 3 mm float filmed glass. Printed, glazed, painted. The particular technique used gives a sand-blasted effect. All parts are hand-painted. Sand-blasted effect is given by using a special hand-painting technique: Cloud-like colouring.*

#### DESCRIZIONE TECNICA.

Misure massime realizzabili: 160x280 cm.

Spessore vetri: da 6 mm a 8 mm.

- possibilità di fare stratificati multipli fino a 30 mm.
- possibilità di assemblaggio in vetro termico.

#### TECHNICAL DESCRIPTION

Maximum size: 160x280 cm.
